

COVID-19 Safety Measures at Konkan

- The safety of our customers and team is of extreme importance to us. In order to prevent infection, we have several control measures in place.
- We're doing thorough cleaning and sanitising both in front and back of the house, on an increased basis. All tableware, menus etc. are sanitised after each use. Hand sanitisers are available throughout the restaurant.
- For all our team members there are daily temperature checks before starting work. There is a response plan in place for an event where any team member may show symptoms or feel unwell. We have safety checklists for staff returning to work after a break.
- There is appropriate distancing as required between all tables. We have added screens between tables where required.
